

月访问量1221万的打字练习网站的开源模式值得我们学习

原创 我是哥飞 哥飞 2023-12-22 23:00:28 广东

大家好，我是哥飞。

前天我们在《花半天开发的网站上线一周，今日3000人访问，他是怎么做到的？》文章中介绍了 GeminiProChat.com通过开源模式免费获取了大量宣传资源和外部链接。

今天，他的网站流量又创新高，现在已经有4700了，还剩2小时，到今天结束应该能到5000。

网站地址：<https://geminiprochat.com/>

开源项目本身也有5200个 Fork，1700多个 Star 了。

gemini-client

gemini-pro

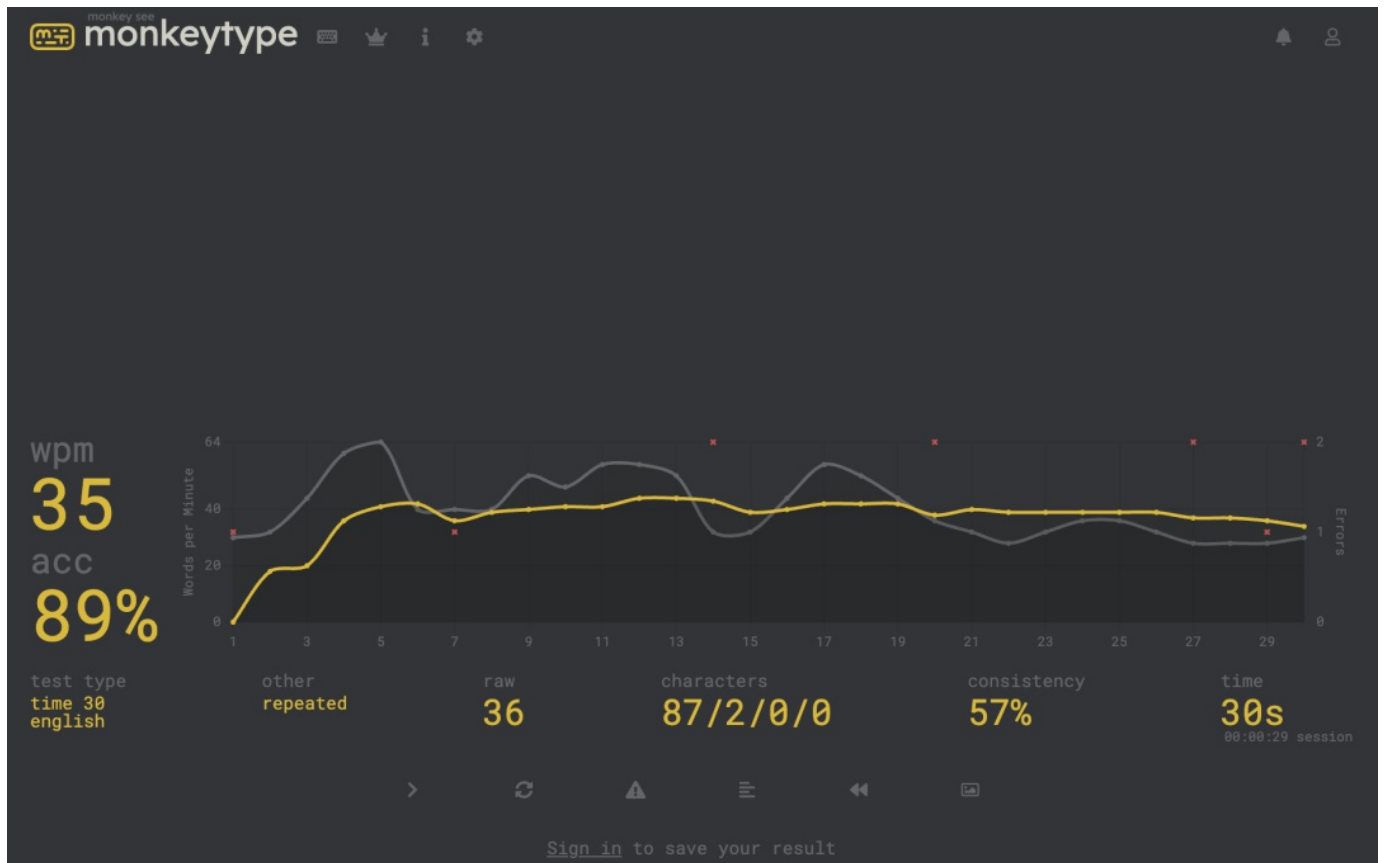

哥飞又想起之前在《做网站没灵感？来看看别人的优秀案例之前端工具站》文章中介绍过的在线打字练习网站 monkeytype.com，这个网站当时我们查9月份的访问量是1190万，后来10月份有个大增长到了1270万，11月份降了一些，但

依然还有1221万。
网站地址：monkeytype.com

也就是说，即使是在这么大访问量的情况下，还能够实现稳中有升，说明这个网站真的是满足了用户需求了。

The screenshot shows the monkeytype website interface. At the top, there is a navigation bar with the monkeytype logo and several icons. Below the navigation bar, there is a search bar with the text '@ punctuation # numbers'. The main content area displays a typing test with the text 'feel make down such right both state run get become tell be that state say and present right more then go real form see long up if write person at day back lead about come the hold never fact little plan should through would or few follow'. The test is set to 'repeated' mode, 'english' language, and 'custom pace (34.8 wpm)'. The bottom of the screen shows a 'C' icon.

从 Github 可以看到，这个项目已经有 12500 多个 Star 和 1900 多个 Fork 了。

为什么会有这么多网站愿意给外链呢？

随便点开几个就能看到，有导航网站收录：

Search for apps and games

[Home](#) > [Apps](#) > [Utilities](#) > [Monkeytype](#)

Monkeytype

[↓ Install on WebCatalog Desktop](#)Don't have WebCatalog Desktop installed? [Download WebCatalog Desktop](#).[↗ Use Web App](#)Website: monkeytype.com

有电子产品评测网站评测电脑时用来测试键盘输入手感:

[Table of Contents](#) ▾**Acer Chromebook 315 (2023)**
\$379.00 at Amazon[See It](#)

Using the Acer Chromebook 315

While the Chromebook 315's keyboard is serviceable, it's not capable of the best typing experience.

In Monkeytype, I was able to hit a typing speed of 98 words per minute with 97% accuracy, but trying to go faster often had me missing full key presses or hitting edges of neighboring keys because the shape of the keycaps doesn't really help keep my fingers centered. The small Backspace key and unusual position of the Delete key also don't help much with mid-stream editing. The keyboard feels soulless, an unpleasant dance partner for my fingertips.

有键盘测试:

Step 13: The Typing Test

It's time to take your custom-made keyboard for a driving test. Boot up your favorite typing test and start typing away. We recommend [monkey-type](#).

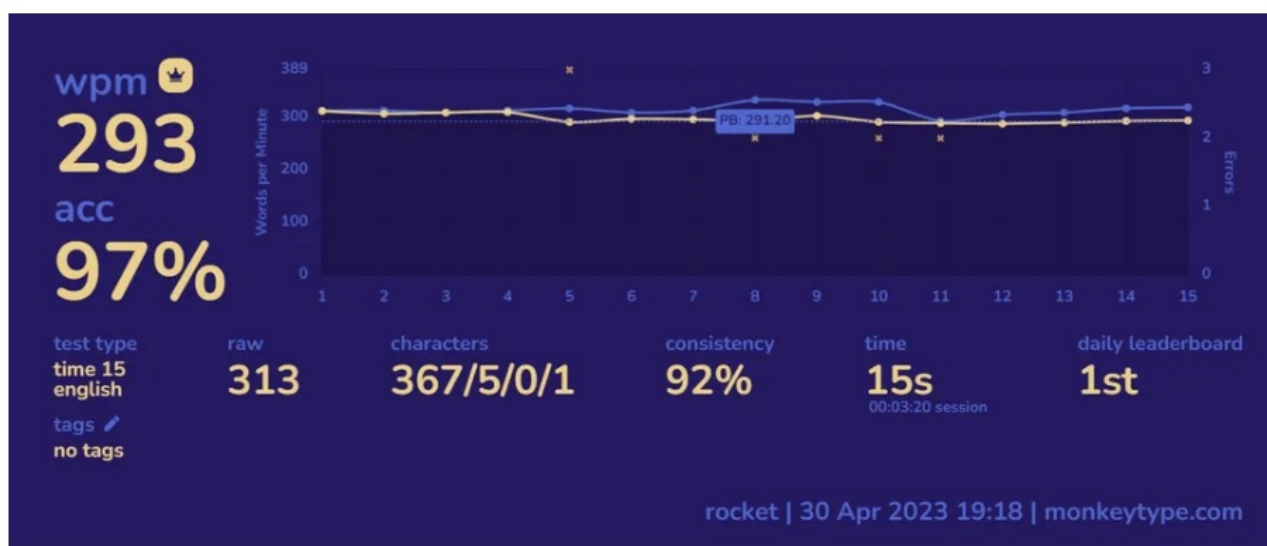

有科技博客的打字速度测试工具介绍页面:

How to Take a WPM Test

Practicing and tracking your WPM has become more popular over the years, some people even include their WPM on their resumes. Free typing speed tests have become widespread and help people test and improve their typing skills. Here are some of the most popular typing sites with the sizes of their audiences according to SimilarWeb.com:

- **MonkeyType.com**: 10 million monthly visitors
- **10FastFingers.com**: 7.4 million monthly visitors
- **TypeRacer.com**: 3.7 million visitors
- **NitroType.com**: 2.8 million monthly visitors
- **Keyma.sh**: Around 50,000 monthly visitors
- **Typrx.com**: Around 50,000 monthly visitors

还有打字记录被刷新的新闻报道：

(Image credit: Twitter user @MythicalRocket)

A new world typing record of 293 words per minute (wpm) was apparently set last weekend by aptly-named Twitter user [@MythicalRocket](#). The typist [uploaded a video](#) of the speed run to his YouTube account showing him achieving 293 wpm with 97% accuracy over 15 seconds [on Monkeytype](#) on April 30. This followed a record-setting run just one day earlier, in which he reached [272wpm with 98% accuracy over 60 seconds](#).

也就是说，这个工具已经不仅仅是一个工具了，还是一个平台，全世界的打字爱好者和键盘布局爱好者都来这里提交自己的打字速度记录来冲排行榜。

我们最后总结一下，这个开发者在2019年做了一个很好用的在线打字工具，同时开源了前后端代码，让人人都能够部署一个自己的在线打字工具网站。

因为是开源的，并且整个网站体验做得很好，所以被很多媒体报道，也被很多的用户分享，于是带来了第一批扩散。

之后又因为他这里可以提交打字速度，大家可以冲排行榜，于是大家又会为了冲榜而经常来他的网站测试打字速度，并且提交速度数据。

我们看到，[GeminiProChat.com](#)和 [MonkeyType.com](#) 都因为开源而带来了用户的自发传播，获得了很多的流量和外链。

这就是我们值得学习的地方。

我们后面开发一些在线工具，是否可以开源呢？

我觉得是可以的。

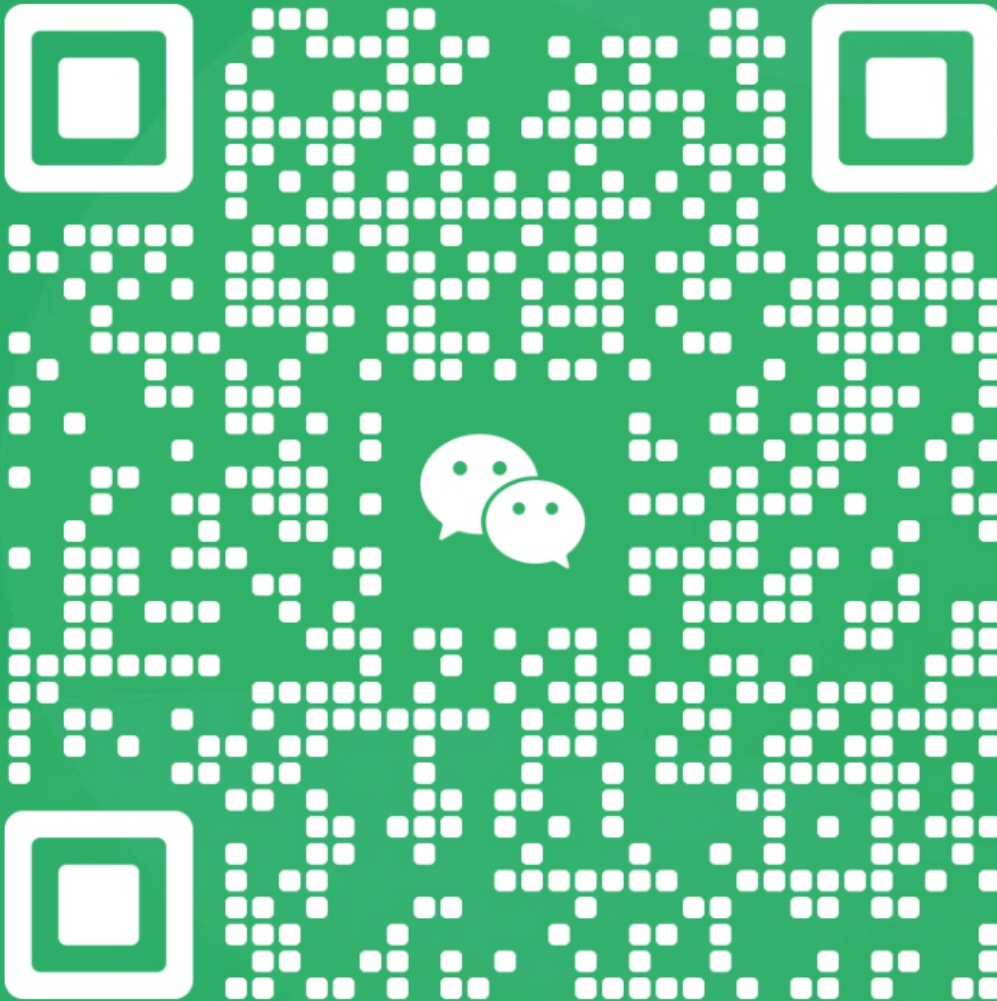

好了，以上就是今天哥飞给大家分享的内容。

欢迎加入哥飞的付费社群“哥飞的朋友们”，做网站养老，躺赚美元，你也可以的。
