还可以设定各类参数

预设风格/长宽比/时长/生成个数

还有一个故事版

预设风格，包含如下5个

长宽比

3 种可选

## Aspect ratio

16:9

1:1

9:16

## 分辨率

最高 1080p (仅限 Pro 用户)

## Resolution

1080p

8x slower

720p

4x slower

480p

Fastest

## 长宽比

时长5~20秒

### Duration

- ☐ 20 seconds
- ☐ 15 seconds
- ☒ 10 seconds
- ☐ 5 seconds

单次生成

最多 4 个

### Variations

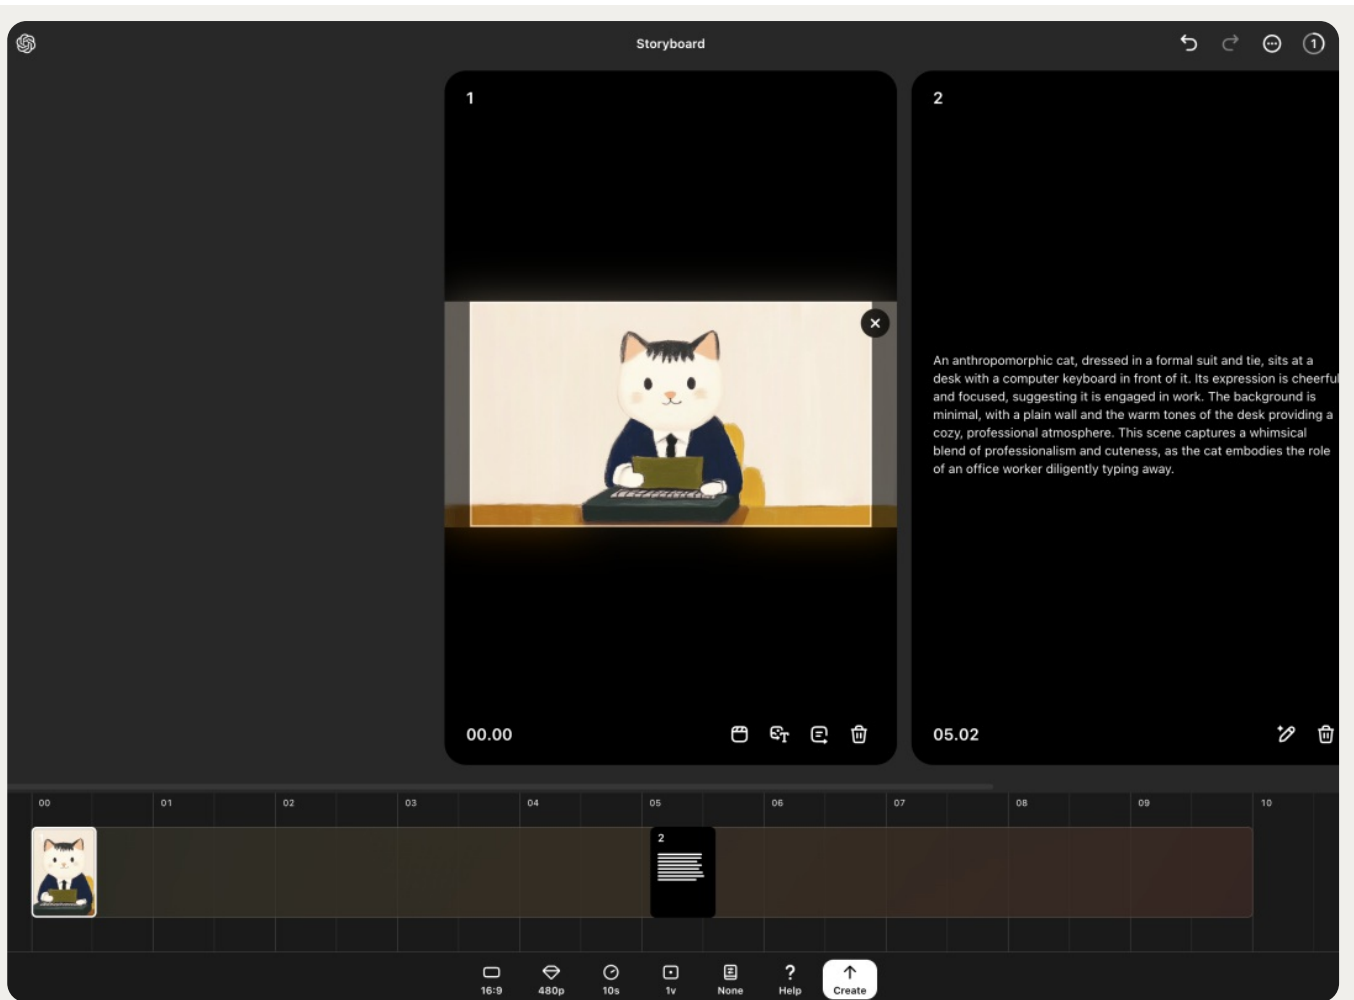

- ☐ 4 videos
- ☐ 2 videos
- ☒ 1 video

故事板

保持内容的一致性

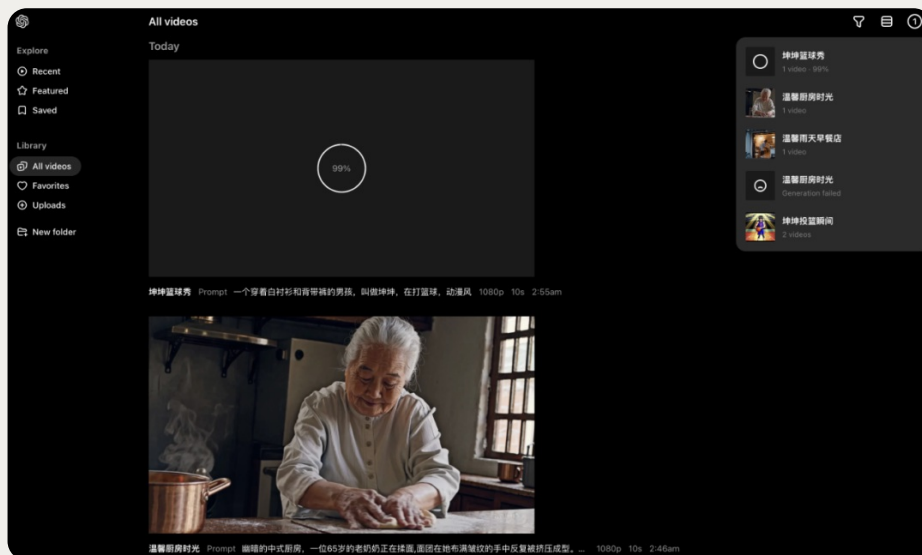

非常实用

(后面细说)

## 自带剪辑

视频被成功生成后  
会显示在 Library 里  
可进一步进行编辑

编辑包含 4 种

Re-cut: 修剪片段

Remix: 内容修改

Blend: 内容混合

Loop: 循环剪辑

Re-cut

可修剪、扩展视频的片段

Remix

用自然语言，编辑或修改视频中的对象

Blend

将两个视频，混合在一起

Loop

可以无缝重复现有视频的任何部分

Story Borad

超牛逼、超实用的工具

对视频节奏，进行精确设定

### Plus, 20 美金版

1000 credits

最多 50 个快速处理

对于 480p 的视频

同时生成 2 个，10s，30帧/s

对于 720p 的视频

同时生成 1 个，5s，30帧/s

### Pro, 200 美金版

10000 credits

最多 500 个快速处理

不限个数的慢速处理

下载时，可不带水印

对于 480p 的视频

同时生成 4 个，20s，30帧/s

对于 720p 的视频  
同时生成 2 个，20s，30帧/s

对于 1080p 的视频  
同时生成 1 个，10s，30帧/s

有关 Credits

你可能会好奇  
为啥既有 credits 限制  
还有生成数量限制

是因为  
生成不同长度、质量的视频  
会消耗不同数量的积分  
具体如下

对于视频生成

|              | 5s          | 10s         | 15s          | 20s          |
|--------------|-------------|-------------|--------------|--------------|
| 480p square  | 20 credits  | 40 credits  | 60 credits   | 80 credits   |
| 480p         | 25 credits  | 50 credits  | 100 credits  | 150 credits  |
| 720p square  | 30 credits  | 75 credits  | 150 credits  | 225 credits  |
| 720p         | 60 credits  | 180 credits | 360 credits  | 540 credits  |
| 1080p square | 100 credits | 300 credits | 650 credits  | 1000 credits |
| 1080p        | 200 credits | 600 credits | 1300 credits | 2000 credits |

对于视频编辑  
包括 Re-cut, Remix, Blend 或 Loop

|              | 0-5s       | 5-10s      | 10-15s      | 15-20s      |
|--------------|------------|------------|-------------|-------------|
| 480p square  | 4 credits  | 4 credits  | 4 credits   | 4 credits   |
| 480p         | 5 credits  | 5 credits  | 10 credits  | 10 credits  |
| 720p square  | 6 credits  | 9 credits  | 15 credits  | 15 credits  |
| 720p         | 12 credits | 24 credits | 36 credits  | 36 credits  |
| 1080p square | 20 credits | 40 credits | 70 credits  | 70 credits  |
| 1080p        | 40 credits | 80 credits | 140 credits | 140 credits |

当然  
如果是 ChatGPT Pro  
在慢速模式下  
不消耗积分

## 一些案例，含 Prompt

### Eons to NYC

in 35mm analog film we are zooming fast through all of history and time zooming through volcanic landscape of raw earth exploding and a blur of motion takes us under water we pass through the water and emerge into a jungle where time rapidly shift and the jungle transforms into a quaint 1800s town and we zoom through this town as it evolves into a city moving faster and faster as the city evolves into a modern day new york city from the year 2019 and we fly over the streets and zoom into a bodega and end on the close up of a bodega deli owner looking bored gazing out into the distance

用 35mm 模拟胶片，我们快速穿越历史和时间，掠过爆发的火山原始地貌，一片模糊的动态带我们潜入水下，穿过水面后来到丛林，时间快速流逝，丛林转变成一个 1800 年代的古朴小镇，我们穿越这个小镇，看着它逐渐发展成一座城市，随着城市演变成 2019 年的现代纽约，速度越来越快，我们飞过街道，缩放进一家杂货店，最后定格在一位杂货店老板的特写上，他一脸无聊地凝视着远方。

### Whimsical Paper Mâché World

Create a hyper-realistic still image inspired by muted, earthy tones derived from the original image, infused with a subtle, invisible motion that suggests water gently flowing through and around every element of the scene. The setting features structured, decaying botanical forms reminiscent of sea slugs, rendered in softened variations of mossy greens, dusky oranges, and pale grays, with subdued accents of aged brass and tarnished gold. These muted tones blend in fluid gradients, creating a handcrafted aesthetic that feels both organic and otherworldly. Each decaying structure is textured with bulbous, irregular formations, echoing the natural entropy of weathered stone and bone. Embedded within

the folds and fissures are faint, face-like impressions that emerge subtly, evoking pareidolia as if the structures themselves are alive. These spectral forms shift slightly with the flow of the invisible current, their expressions flickering between serene and haunting. The matte, dulled surfaces glisten faintly in places, catching highlights as though kissed by light refracted through unseen ripples. The decaying forms rest amidst a bed of muted teal sea grass, its texture soft yet wiry, swaying rhythmically as though tethered to the aquatic flow. The gentle motion of the water animates the face-like impressions, making them appear to breathe or murmur faintly, heightening the scene's eerie allure. The interplay of subdued tones and dynamic movement lends a surreal, meditative quality to the composition. Faint highlights of desaturated brass and gold trace along the edges of the formations, catching the dim light and adding subtle depth. Breaks between tones are softened but deliberate, revealing layers beneath the surface that seem to shift and evolve with the aquatic rhythm. The muted palette and understated fluidity create a dreamlike atmosphere of decaying elegance, capturing the quiet, timeless beauty of natural transformation in a surreal and mystical context.

创造一个超写实的静态画面，灵感来自原始图像的柔和泥土色调，融入了微妙的隐形运动，暗示着水流轻柔地流经和环绕场景中的每一个元素。场景特点是结构化的腐朽植物形态，令人联想到海蛞蝓，以柔和的苔藓绿、暗橙色和淡灰色呈现，并带有老化黄铜和失光金的柔和点缀。这些柔和的色调在流动的渐变中融合，创造出既有机又超凡的手工艺艺术感。每个腐朽的结构都带有膨胀的、不规则的形态纹理，呼应着风化石头和骨骼的自然衰败。在褶皱和裂缝中嵌入着淡淡的面孔般的印记，它们微妙地浮现，唤起错觉性面容识别，仿佛这些结构本身是活的。这些幽灵般的形态随着看不见的水流轻微移动，它们的表情在平静和令人不安之间闪烁。哑光的、暗淡的表面在某些地方微微闪烁，仿佛被看不见的涟漪折射的光芒轻吻。

Create a hyper-realistic still image inspired by muted, earthy tones infused with a subtle, invisible motion that suggests water gently flowing through and around every element of the scene. The setting features structured, decaying botanical forms reminiscent of sea slugs, rendered in softened variations of mossy greens, dusky oranges, and pale grays, with subdued accents of aged brass and tarnished gold. These muted tones blend in fluid gradients, creating a handcrafted aesthetic that feels both organic and otherworldly. Randomly placed selenite-like crystal rods, semi-translucent and glowing faintly, pierce through the decaying structures and the surrounding sea grass. The rods' surfaces have a soft, refractive quality, diffusing the dim light into pale blues and whites. They appear as if naturally grown from the environment, their smooth, angular shapes contrasting with the bulbous, irregular formations of the decaying forms. Each decaying structure is textured with irregular, weathered formations, echoing the natural entropy of aged stone and bone. Embedded within the folds and fissures are faint, face-like impressions that emerge subtly, evoking pareidolia as if the structures themselves are alive. These spectral forms shift slightly with the flow of the invisible current, their expressions flickering between serene and haunting. The matte, dulled surfaces glisten faintly in places, kissed by light refracted through the selenite rods and unseen ripples of water. The decaying forms rest amidst a bed of muted teal sea grass, its texture soft yet wiry, swaying rhythmically as though tethered to the aquatic flow. The crystal rods punctuate the grass and formations, their clean geometry adding a mystical, alien quality to the otherwise organic decay. The interplay of muted tones, glowing crystals, and dynamic movement lends a surreal, meditative quality to the composition. Faint highlights of desaturated brass and gold trace along the edges of the formations, catching the dim light and adding subtle depth. The selenite rods glimmer faintly, amplifying the interplay of light and texture, while breaks between tones reveal layers beneath the surface that seem to shift and evolve with the aquatic rhythm. The muted palette, understated fluidity, and crystalline accents create a dreamlike atmosphere of decaying elegance and mystical transformation.
